

CURRICULUM VITAE - ANDREAS SCHUBERT

Personal Facts

- | | |
|--|------------|
| 1. Family name: | Schubert |
| 2. First name: | Andreas |
| 3. Date of birth | 08.10.1955 |
| 4. Nationality (passport holder): | German |
| 5. Place of residence | Ethiopia |

6. Education

Gymnasium Holzminden	Abitur: Mai 1974
Georg August Universität Göttingen	April 1979 – Feb.1985, Degree: Diplom Biologe (equivalent to MSc)

7. Language skills (1 to 5 for competence)

Language	Reading	Speaking	Writing	Publications	Time
<u>German</u>	Mothertongue	Mothertongue	Mother tongue	9	32 years in Germany
English	1	1	1	10	6 years (Canada, USA, UK, Ethiopia)
Spanish	1	1	1	34	23 years (Dom. Rep., Ecuador, Peru, Chile)
French	3	2	2	4	1 year (France, northern Africa)
Creole (Haiti)	5	5	4		Several months (Haiti)

Competence in a scale 1 a 5 (1 – excellent; 5 – basic)

8. Membership of professional bodies (active 1993-2003)

IUCN: Species Survival Commission - Crocodile Specialist Group

9. Other skills

Computer literacy (Microsoft Office, ArcMap 10)

10. Key qualifications

More than 22 years of working experience in Latin America (Dominican Republic, Haiti and Ecuador) and 2 years in Ethiopia; in the topics: evaluation and construction of protected area systems, planning of new protected areas, zoning of protected areas, design and implementation of environmental and conservation projects, environmental management on municipality level, creation and management of biosphere reserves and biological corridors, regional planning, evaluation of human impacts, environmental legislation, conservation of species and habitats, community based ecotourism, buffer zone management, environmental education, payment for environmental services, public relations and communication, cartography and geographic information systems GIS.

11. Special skills

Project coordination

Coordination of the projects „Research and Protection of the American crocodile at Lago Enriquillo“ and „Ecosystem Services watershed of Río San Rafael“, member of steering structure of Transboundary Environmental Program Dominican Republic – Haiti.

Regional planning, design and zoning of Biosphere Reserves and Protected Areas

Zoning concept SH Wattenmeer national park, proposals for zoning in 5 mountain humid forests in DR, strategies for the creation and implementation of the biosphere reserve „Jaragua – Bahoruco – Enriquillo“, formulation and implementation of a Master Plan for protected areas and sustainable development in southern Ecuador: re-engineering of protected forests, municipal protected areas, creation of the biosphere reserve “Macizo del Cajas” and the ecological corridor in the southern Cordillera Real Oriental.

Project planning and execution

Leadership in developing project proposals and planning of projects or project phases while working in the DR Wildlife Department, National Park Directorate / Secretary of Environment, Transfrontier Environmental Program (EU), Dominican Environmental Consortium (CAD), Provincial Government of Azuay and Ministry of Environment / Ecuador: project coordination, five-year plans, annual operative plans, logical frame, SWOT analysis, indicators, chronograms and budgets, project documentation, systematization and monitoring.

Human capacity development

Conduction of planning workshops with colleagues and stakeholders, creation of intra- and inter-institutional working groups, on-the-job training in topics like flora and fauna inventories, protected area management, environmental services and ecotourism.

Policy making

Definition and realization of a public policy in environmental management and conservation and sustainable use of natural resources in Azuay province, Ecuador, Masterplan for protected areas and sustainable development in Azuay province and surrounding areas.

Provincial and municipal environmental management

Creation of and assistance to Unities of Environmental Management UGAM in 3 municipalities in southern DR: assistance in environmental analysis, local environmental forums, municipal ordinances. Creation of a decentralized environmental management between provincial and municipal level in Azuay province

CURRICULUM VITAE - ANDREAS SCHUBERT

Protection of species and habitats:

Creation of a list of threatened vertebrate species in the Dominican Republic, recording and evaluation of animal habitats, criteria for an improvement of species and habitat protection, research and protection of the American crocodile (*Crocodylus acutus*), action plan for the crocodiles in Lago Enriquillo.

Evaluation and construction of protected area systems

Visit and description of different protected area systems in the USA, evaluation of the protected area system in the Dominican Republic (gap analysis): representation of the most important ecosystems and species (flora and fauna), conditions of these ecosystems, proposals to improve the situation, proposals for the creation of new protected areas, especially in humid mountain forests, redelimitation and creation of protected areas in Azuay province (Ecuador).

Evaluation of human impacts:

on the crocodile population of Lago Enriquillo and on the natural resources of the mountain ranges Sierra de Bahoruco and Sierra de Neiba, Dominican Republic

Payment for Environmental Services PES

Teamleader in the project „Valorization of Environmental Services in Rio San Rafael watershed, land-use planning in the watershed, economical and ecological evaluation of land-use patterns

Scientific Research:

Predator – prey relationships in benthic ecosystems of the Wadden Sea, longtime changes in faunal composition of the Wadden Sea benthos, importance of mountain humid forests in the Dominican Republic for fauna, especially birds, behavioral studies on the common seal on Orkney Islands, Scotland, population dynamics in the American crocodile, hydrological studies in Lago Enriquillo.

Cartography and other graphical presentations

Almost all of my presentations and publications include graphs and maps elaborated by myself (totalling more than 100) in topics like land-use planning, (eco-) touristic objects of interests and routes, vegetation maps, and so on. Since 1998 these maps are being created on computerbased programs. In the Biodiversity & Forestry Program (Ethiopia) I am in charge of all mapping and GIS issues.

Tourism / Ecotourism

Studies on tourism, proposals for visitor guidance, definition of criterion for the construction of visitor centers, design of information boards, interpretive trails, hiking guides, ecotouristic guides and brochures, public use and development plans for national parks, promotion of ecotourism in protected areas, promotion of local community-based ecotourism initiatives in DR and Haiti, strategy paper for the development of ecotourism in Enriquillo region, southern DR, creation of a network for ecotourism initiatives, definition of touristic offers, elaboration of maps with objects of interest and routes.

Environmental Education and Public Relations:

Slideshows with following topics: crocodile protection, environmental problems caused by slash and burn agriculture in mountain regions, biosphere reserve Jaragua-Bahoruco-Enriquillo, Poster “Hacia la Armonía entre el Ser Humano y la Naturaleza - Reserva de Biosfera Enriquillo”, script for the documentary “Natural Treasures of the Dominican Republic”, TV reports on Lago Enriquillo crocs, broadcasted in DR, Germany and worldwide in Animal Planet and the Discovery Channel, participation in more than 20 telecasts on environmental topics in different Dominican channels, Encyclopedia on the DR with the topics: ecosystems, fauna, human impacts, protected areas, planning and execution of more than 20 workshops on topics like: capacitation of nature guides, environmental forums, environmental services, networks for environmental education in the Paute watershed, southern Ecuador.

CURRICULUM VITAE - ANDREAS SCHUBERT

Environmental Legislation

Co-author of the draft of various presidential decrees to create Lago Enriquillo National Park and five humid mountain forest protected areas, analysis of the legal situation in terms of use and protection of plant and animal wildlife in the DR, participation in the formulation of draft for a protected area law in the DR and municipal ordinances in Ecuador.

Date: from – to	Location	Company	Position	Description / Responsibilities
07/2015 – 07/2017	Ethiopia	Gesellschaft fuer Internationale Zusammenarbeit GIZ	Advisor for Protected Areas Management and Biodiversity in Biodiversity and Forestry Program BFP	Situation and SWOT Analysis for Nechsar and Awash National Parks, baseline study for the 9 pilot areas, profiles of districts surrounding pilot areas, promotion of biosphere reserve in Awash Alledoghi area, in charge of all mapping and GIS activities
01/2012- 7/2014	Ecuador	Gesellschaft fuer Internationale Zusammenarbeit GIZ	Advisor at the regional office of the Ecuadorian Ministry of Environment MAE	Re-engineering of PA subsystems, creation of municipal PA, of biosphere reserve MACIZO DEL CAJAS and the eco-corridor in the southern part of the Cordillera Real Oriental, Biodiversity-Inventories in the 6 provinces of southern Ecuador
11/2008- 12/2011	Ecuador	German Service for Social and Technical Cooperation, DED	Advisor at the Department of Environmental Management, Provincial Government, Azuay province in southern Ecuador	Policy-making: Formulation and Implementation of an environmental public policy on province level, including protection and sustainable use of biodiversity, soils and subsoils, water resources, environmental sanation, environmental monitoring
11/2004- 9/2007	Dominican Republic	Center for International Migration CIM / GTZ	Integrated expert at Consorcio Ambiental Dominicano CAD, Projekt Teamleader	Building of alliances and networks in the region, implementation of the ecotourism strategy, environmental management on municipality level, payment for environmental services, municipal reserves, co-management of protected areas
1/2004- 8/2004	Dominican Republic	German Service for Social and Technical Cooperation, DED	Short term expert at Consorcio Ambiental Dominicano CAD	Strategy paper for the development of community-based ecotourism in the JBE biosphere reserve
7/2002- 11/2003	Dominican Republic / Haiti	European Union and DED	International Technical Advisor Transboundary Environmental Program RD – Haiti PMT, financed by European Union / FED	Annual planning, evaluation and monitoring, bi-national alliances with different stakeholders, promotion of community-based ecotourism, land-use planning
8/1998- 6/2002	Dominican Republic	Center for International Migration CIM / GTZ	Integrated Expert: Advisor to the National Park- Direktorate / Secretary of Environment and Natural Resources SEMARN	Planning and execution of projects, profiles of protected areas, educational materials, website, interpretive trails, elaboration of the proposal JBE biosphere reserve (UNESCO)

CURRICULUM VITAE - ANDREAS SCHUBERT

Date: from – to	Location	Company	Position	Description / Responsibilities
1/1990- 6/1997	Dominican Republic	German Service for Social and Technical Cooperation, DED	Advisor at Wildlife Department, Ministry of Agriculture, Santo Domingo	Planning and execution of conservation projects, studies on biodiversity, proposals for new protected areas, studies and conservation of endangered species (especially American crocodile), buffer zone management, proposal and lobbying for the biosphere reserve JBE
5/1987- 9/1989	Toenning, Germany	Nationalpark Schleswig- Holsteinisches Wattenmeer	Internal Consultant	Studies on tourism in the Waddensea, Master Plan for Visitor Centers, Zonation of the national park Exchange visit to protected area systems in the USA
5/1985– 9/1986	List, Sylt, Germany	Biologische Anstalt Helgoland	Scientific Assistant	Research in marine and coastal ecology: Waddensea benthic fauna
